Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Use the mains plug to disconnect the apparatus from the mains.
16. WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.
17. WARNING: THIS APPLIANCE SHALL BE CONNECTED TO A MAINS SOCKET OUTLET WITH A PROTECTIVE EARTHING CONNECTION.
18. DO NOT EXPOSE THIS EQUIPMENT TO DRIPPING OR SPLASHING AND ENSURE THAT NO OBJECTS FILLED WITH LIQUIDS, SUCH AS VASES, ARE PLACED ON THE EQUIPMENT.
19. THE MAINS PLUG OF THE POWER SUPPLY CORD SHALL REMAIN READILY OPERABLE.

WATCH FOR THESE SYMBOLS:
- ! The lightning bolt triangle is used to alert the user to the risk of electric shock.
- ! The exclamation point triangle is used to alert the user to important operating or maintenance instructions.

T-Series amplifiers require Class 2 output wiring.

MAGNETIC FIELD
CAUTION! Do not locate sensitive high-gain equipment such as preamplifiers or tape decks directly above or below the unit. Because this amplifier has a high power density, it has a strong magnetic field which can induce hum into unshielded devices that are located nearby. The field is strongest just above and below the unit.

If an equipment rack is used, we recommend locating the amplifier(s) in the bottom of the rack and the preamplifier or other sensitive equipment at the top.

FCC COMPLIANCE NOTICE
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
## Declaration of Conformity

**DECLARATION OF CONFORMITY**

**Issued By:** Harman International.
1718 W. Mishawaka Rd.
Elkhart, IN 46517 U.S.A.

**European Representative’s Name and Address:**
David J. Budge
10 Harvest Close
Yateley
GU46 6YS
United Kingdom

**Equipment Type:** Commercial Audio Power Amplifiers

**Family Name:** T-Series

**Model Names:** T3, T5, T7, T10

**EMC Standards:**
- EN 55103-1:1997 Magnetic Field Emissions-Annex A @ 10 cm and 20 cm
- EN 61000-3-2:2001 Limits for Harmonic Current Emissions (equipment input current less than or equal to 16 A per phase)
- EN 61000-3-3:2002 Limitation of Voltage Fluctuations and Flicker in Low-Voltage Supply Systems Rated Current less than or equal to 16A
- EN 55022:2003 Limits and Methods of Measurement of Radio Disturbance Characteristics of ITE: Radiated, Class B Limits; Conducted, Class A
- EN 61000-4-2:2001 Electrostatic Discharge Immunity (Environment E2-Criteria B, 4k V Contact, 8k V Air Discharge)
- EN 61000-4-3:2001 Radiated, Radio-Frequency, Electromagnetic Immunity (Environment E2, criteria A)
- EN 61000-4-4:2001 Electrical Fast Transient/Burst Immunity (Criteria B)
- EN 61000-4-5:2001 Surge Immunity (Criteria B)
- EN 61000-4-6:2003 Immunity to Conducted Disturbances Induced by Radio-Frequency Fields (Criteria A)
- EN 61000-4-11:2001 Voltage Dips, Short Interruptions and Voltage Variation

**Safety Standard:**
- IEC 60065: 2001 7th Ed. Safety Requirements - Audio Video and Similar Electronic Apparatus

Signed

Terry Davenport
Director of Manufacturing

Date of Issue: March 1, 2012

---

Due to line current harmonics, we recommend that you contact your supply authority before connection.

Front Panel Features

- **Gain Control**
  Sets output level of channel 1.
- **Power LED**
  LED illuminates blue when amplifier is on.
- **Fault LED**
  Red LED, one per channel, indicates channel shutdown.
- **Gain Control**
  Sets output level of channel 2.
- **Rack-Mount Hole**
  (one of four)
- **Power Switch**
  Push to power the amp on or off.
- **Signal Presence LED**
  Green LED, one per channel, flashes when input signal exceeds -40 dBu.
- **Clip LED**
  Yellow LED, one per channel, flashes when signal is audibly distorting.
- **Grill**
  Allows air ventilation to flow from front to back.

Back Panel Features

- **Circuit Breaker**
  Provides overload protection.
- **Mode Switch**
  Stereo (dual), Parallel or Bridge.
- **Fans**
  Provide front-to-back forced airflow for cooling.
- **Input Connectors**
  One balanced XLR and one unbalanced RCA per channel.
- **AC Power Connector**
- **Output Connectors**
  One Speakon® and one Binding Post connector pair per channel for connecting loudspeakers.
- **Sensitivity Switch**
  1.4V or 0.775V input sensitivity.
Unboxing the Amplifier

Please open the packing box and check whether the equipment has been damaged during transportation. If damage is found, please notify the transportation company immediately. Only you can make a claim for shipping damage. Crown is happy to help as needed. Keep the shipping carton and use it as evidence of damage to the equipment when the shipper checks it.

In addition, we recommend that you save all packaging materials for future transportation of the device. Do not transport equipment without factory packaging. You will need the following items to install the amplifier (not provided):

• Input cable
• Output cable
• Bracket used to support the amplifier when mounted in the rack or a stable table to place the amplifier on (the amplifier should always be supported from the bottom)

WARNING: Before you start installing the amplifier, make sure you have read and followed the important safety instructions listed at the beginning of this manual.

WARNING: Before starting the installation, make sure you have disconnected the amplifier from the power supply, set the power switch of the amplifier to the “off” position, and adjusted all volumes to the lowest (fully counterclockwise) position.

Installing the Amplifier

CAUTION: Before you begin, make sure the amplifier is disconnected from the power source.

Use a standard 19-inch (48.3 cm) equipment rack (EIA RS-310B). Please refer to the specifications (see “Specifications”) for the specific power amplifier size.

NOTE: During transportation, support must be provided on the front and back of the amplifier.

Proper Cooling

Air flow is front to back as illustrated in Figure 2. If using equipment racks, we recommend placing sensitive equipment at least 20 cm away from the amplifier. When using an equipment rack, be sure to use empty panels to close all open spaces. Do not block the front and rear vents. Leave at least 5.1 cm of space between the brackets on both sides and the amplifier, and at least 10.2 cm between the brackets on the back and the amplifier space.

WARNING!!! Do not place equipment that can be damaged by strong magnetic fields near the amplifier, as it may generate unwanted noise if too close to other equipment.
Wiring

Stereo (Dual) Wiring Using Both Speakon® Connectors
1. On the back panel, set the Output Mode Switch to STEREO.
2. Wire the speakers to the Speakon® connectors as shown.

Stereo (Dual) Wiring Using One Speakon® Connector
1. On the back panel, set the Output Mode Switch to STEREO.
2. Wire the speakers to the Speakon® connectors as shown.
Wiring (continued)

Stereo (Dual) Wiring Using Binding Post Connectors
1. On the back panel, set the Output Mode Switch to STEREO.
2. Wire the speakers to the binding post connectors as shown.

Bridge-Mono Wiring Using Speakon® Connectors
Bridge-mono mode doubles the output power of the amplifier.
1. On the back panel, set the Output Mode Switch to BRIDGE.
2. Wire the speaker to the Speakon® connector as shown.
3. Only the Channel 1 Gain Control works in Bridge-mono mode.
Wiring (continued)

Bridge-Mono Wiring Using Binding Post Connectors
Bridge-mono mode doubles the output power of the amplifier.

1. On the back panel, set the Output Mode Switch to BRIDGE.
2. Wire the speaker to the binding post connections as shown.
3. Only the Channel 1 Gain Control works in Bridge-mono mode.

Parallel Wiring Using Speakon® Connectors
With this wiring, a signal sent to one of the input connectors is paralleled to both channels so that it is reproduced by both speakers.

1. On the back panel, set the Output Mode Switch to PARALLEL.
2. Wire the speakers to the Speakon® connectors as shown.
Wiring (continued)

Parallel Wiring Using Binding Post Connectors
With this wiring, a signal sent to one of the input connectors is paralleled to both channels so that it is reproduced by both speakers.

1. On the back panel, set the Output Mode Switch to PARALLEL.
2. Wire the speakers to the binding post connectors as shown.

Warranty

SUMMARY OF WARRANTY
Crown International, 8500 Balboa Blvd. Northridge, CA 91329 U.S.A. warrants to you, the ORIGINAL PURCHASER and ANY SUBSEQUENT OWNER of each NEW Crown product, for a period of one (1) year from the date of purchase by the original purchaser (the “warranty period”) that the new Crown product is free of defects in materials and workmanship. We further warrant the new Crown product regardless of the reason for failure, except as excluded in this Warranty.

*Your Crown product has been purchased in China and/or other Asian countries. (This Warranty does not apply to Crown products purchased elsewhere except for purchases by military outlets. Other purchasers should contact the local Crown distributor for warranty information.)

ITEMS EXCLUDED FROM THIS CROWN WARRANTY
This Crown Warranty is in effect only for failure of a new Crown product which occurred within the Warranty Period. It does not cover any product which has been damaged because of any intentional misuse, accident, negligence, or loss which is covered under any of your insurance contracts. This Crown Warranty also does not extend to the new Crown product if the serial number has been defaced, altered, or removed.

WHAT THE WARRANTOR WILL DO
We will remedy any defect, regardless of the reason for failure (except as excluded), by repair, replacement, or refund. We may not elect refund unless you agree, or unless we are unable to provide replacement, and repair is not practical or cannot be timely made. If a refund is elected, then you must make the defective or malfunctioning product available to us free and clear of all liens or other encumbrances. The refund will be equal to the actual purchase price, not including interest, insurance, closing costs, and other finance charges less a reasonable depreciation on the product from the date of original purchase. Warranty work can only be performed at our authorized service centers or at the factory. Warranty work for some products can only be performed at our factory. We will remedy the defect and ship the product from the service center or our factory within a reasonable time after receipt of the defective product at our authorized service center or our factory. All expenses in remedying the defect, including surface shipping costs in the United States, will be borne by us. (You must bear the expense of shipping the product between any foreign country and the port of entry in the United States including the return shipment, and all taxes, duties, and other customs fees for such foreign shipments.)

HOW TO OBTAIN WARRANTY SERVICE
You must notify us of your need for warranty service within the warranty period. All components must be shipped in a factory pack, which, if needed, may be obtained from us free of charge. Corrective action will be taken within a reasonable time of the date of receipt of the defective product by us or our authorized service center. If the repairs made by us or our authorized service center are not satisfactory, notify us or our authorized service center immediately.

DISCLAIMER OF CONSEQUENTIAL AND INCIDENTAL DAMAGES
YOU ARE NOT ENTITLED TO RECOVER FROM US ANY INCIDENTAL DAMAGES RESULTING FROM ANY DEFECT IN THE NEW CROWN PRODUCT. THIS INCLUDES ANY DAMAGE TO ANOTHER PRODUCT OR PRODUCTS RESULTING FROM SUCH A DEFECT. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATIONS OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

WARRANTY ALTERATIONS
No person has the authority to enlarge, amend, or modify this Crown Warranty. This Crown Warranty is not extended by the length of time which you are deprived of the use of the new Crown product. Repairs and replacement parts provided under the terms of this Crown Warranty shall carry only the unexpired portion of this Crown Warranty.

DESIGN CHANGES
We reserve the right to change the design of any product from time to time without notice and with no obligation to make corresponding changes in products previously manufactured.

LEGAL REMEDIES OF PURCHASER
THIS CROWN WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE. No action to enforce this Crown Warranty shall be commenced after expiration of the warranty period.

THIS STATEMENT OF WARRANTY SUPERSEDES ANY OTHERS CONTAINED IN THIS MANUAL FOR CROWN PRODUCTS.
