

2517

Adjustable Mount for JBL 8320, 8340A and 8350 Loudspeakers

Key Features:

- Designed for JBL 8320, 8340A and 8350 surrounds
- Pan and tilt adjustments
- Alloy steel construction
- Black powder coat paint

Package Contents:

- 2 x Wall Plate
- 2 x Support Arm
- 2 x Speaker Adapter Plate
- 1 x Hardware Kit

Note: Hardware for mounting to the wall or ceiling structure is not included.

Description:

The 2517 was designed to quickly, safely and permanently attach JBL 8320, 8340A and 8350 surround loudspeakers to auditorium walls and offers a full range of pan and tilt rotations. This makes it easy to precisely mount and accurately aim surround speakers in cinema applications. The extended support arm firmly anchors to walls through sound wall and drapery (up to 2.5"/63.5 mm deep) to allow secure and concealed mounting. The 2517's unique support arm also acts as a convenient carrying handle during installation. Once the arm (speaker) has been inserted into place, the mounting plate does the job supporting all the weight leaving the installer's hands free to complete the wiring and aiming process.

Specifications:

Finish	Powder coat paint
Color	Black
Design Factor	10:1 ratio
Working Load	9 kg (20 lb)
Net Weight	0.7 kg (1.5 lb) each
Shipping Weight	1.8 kg (4 lb) pair
Pack Count	2 units per carton

JBL continually engages in research related to product improvement. Some materials, production methods and design refinements are introduced into existing products without notice as a routine expression of that philosophy. For this reason, any current JBL product may differ in some respect from its published description, but will always equal or exceed the original design specifications unless otherwise stated.

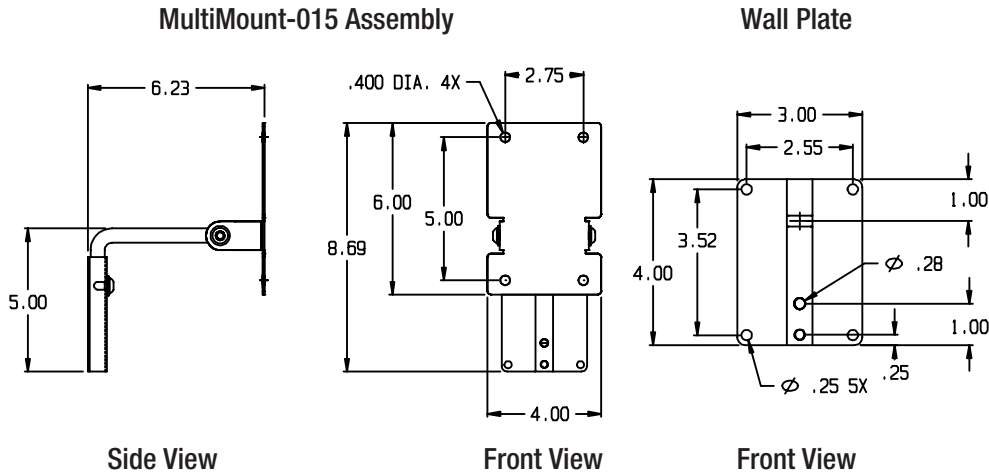

2517

Adjustable Mount for JBL 8320, 8340A and 8350 Loudspeakers

Dimensions:

Dimensions in inches

Rotation:

Pan Rotation (A)	Tilt Rotation (B)
12° max. per side	@ 0° Tilt
18° max. per side	@ 20° Down tilt
8° max. per side	@ 30° Down tilt
Color	Black
Shipping Weight	1.8 kg (4 lb) pair
Working Load	9 kg (20 lb)
Pack Count	2 units per carton

Tilt and pan rotations are based on a 2.5-inch-deep sound isolation panel or drape.

Warning:

Mounting and/or rigging loudspeakers requires experienced professionals. Improperly installed loudspeakers can result in property damage, personal injury and/or liability to the installing contractor.
