

WD-S1160

Professional High-Power Cinema Subwoofer

HIGHLIGHTS ■

Premium JBL Sound & Design

Professional JBL performance with high SPL capabilities and a shallow depth profile

Easy & Versatile Deployment

Easily accessible binding post connectors and built-in rigging points for wall mounting

Complete Cinema Solution

Combine with the Crown WD-A series amplifiers, JBL CPi2000 processor and other WD-S Series speakers for a fully integrated HARMAN / WANDA cinema audio solution

The JBL WD-S1160 cinema subwoofer, part of the JBL WD-S Series, delivers fidelity and performance synonymous with the JBL name to offer a premium sound experience.

The 1,600-watt WD-S1160 delivers room-shaking low end for a variety of cinema configurations, including any immersive sound format installations. The WD-S1160 works seamlessly with the entire JBL WD-S Series, which includes three screen speakers and two surround speakers.

Combine WD-S Series speakers with the JBL CPi2000 cinema processor and Crown WD-A Series amps to build a fully integrated HARMAN / WANDA cinema sound solution.

KEY MESSAGES ■

PREMIUM SOUND WITHOUT THE PREMIUM PRICE

With the WD-S Series, it's never been easier to step into the stunning sound of a JBL cinema system. The WD-S Series WD-S1160 subwoofer is engineered and built to the same standards of all other JBL cinema products, providing powerful, punchy low-end coverage in the 30–500 Hz range; pair them with WD-S Series speakers for a complete solution.

ROCK-SOLID AND RELIABLE

Trust JBL WD-S Series speakers and subs to provide peak performance throughout the life of your investment: Systems are designed for superior overall efficiency; transducer-protection circuitry ensures long-term stability.

DEPLOY WITH EASE, ANY WAY YOU PLEASE

The WD-S Series is designed for streamlined system setup and operation in a range of configurations. WD-S1160 subwoofers operate in 4-ohm mode, enabling them to be driven with Crown WD-A Series amps. The WD-S1160's 4-pin connectors allow driving the two transducers separately (discrete mode) or together (parallel mode). Hardware is engineered for maximum versatility, with enclosure-top input terminals and binding-post connectors.

BUILD AN INTEGRATED SOUND SYSTEM

Complete your JBL cinema sound system with the JBL CPi2000 cinema processor, which provides audio enhancement including DSP, room EQ tuning, volume control and system fault detection. The CPi2000 features WD-S Series speaker presets for better sound and performance and easier deployment, and can send amplifier and speaker status to a central TMS (Theater Management System) control system.

IN THE BOX ■

WD-S1160 Subwoofer Enclosure

WD-S1160

Professional High-Power Cinema Subwoofer

APPLICATIONS ■

CINEMA THEATERS

Small- to medium-sized (80-150-seat) cinema theaters

FEATURES ■

- Shallow 14.97-inch (355 mm) depth saves space behind screens
- Connectors are mounted on enclosure top to preserve minimum depth
- Built-in rigging points facilitate wall mounting for immersive sound installations
- Binding-post input connectors are consistent with other JBL cinema speakers and easy to wire
- 4-pin connectors allow driving the two transducers separately (discrete mode) or together (parallel mode)
- Dual 18-inch transducers deliver higher output and superior bass extension
- Footprint matches the JBL WD-S series cinema speakers to build complete system solutions
- 1,600W rated power
- 4-ohm impedance in parallel mode; can be driven with Crown WD-A Series amps
- 139 dB peak SPL
- Frequency range: 30 Hz–500 Hz (-10 dB)

TECHNICAL SPECIFICATIONS ■

SYSTEM TYPE:	Subwoofer
FREQUENCY RANGE (-10 dB):	30 Hz–500 Hz
SYSTEM IMPEDANCE:	Parallel mode: 4Ω Discrete mode: 8Ω x 2
SYSTEM POWER:	1,600W continuous
SENSITIVITY (4 PI):	98 dB
MAX PEAK SPL (2 PI):	139 dB
TRANSDUCERS:	2 x 18"
COMPLIANCE:	CE
MATERIAL:	MDF
COLOR/FINISH:	Matte black, vinyl
CONNECTORS:	Binding post
RIGGING SYSTEM:	Four rigging points for hanging
WEIGHT:	79.2 kg (174.61 lb)
DIMENSIONS (D x W x H):	355 x 1454 x 933 mm (13.98 x 57.24 x 36.73 in)

ORDER SPECIFICATIONS ■

BOX DIMS (L x W x H):	413 x 1508 x 990 mm (16.26 x 59.37 x 38.98 in)
SHIPPING WEIGHT:	90 kg (198.42 lb)
COUNTRY OF ORIGIN:	CN
UPC CODE:	691991037900
